

**CHOESTOE FALLS RV PARK**  
**Request for Approval to Install 120 gal. Upright Propane Tank**

*Revised 09/2020*

1. Owner shall not install the bulk tank until written approval of placement is received from the Board of Directors.  
**Please allow a minimum of 1 week for Board review and response.**
2. Tank set and gas connection to RV **must** be done by a qualified technician.
3. Screening of tank **must** be completed within 30 days of tank set (**minimum of 3 sides**).
4. Submit drawing or sketch for tank location.
5. If applying for a variance, provide supplemental documentation and rationale for the variance.
6. Paint and Stain colors for tank/screening require approval.  
(Note: Rental tanks may not be allowed to be painted. Check with your propane supplier).
7. Submit Proposed Installation Request Form to a member of the Architectural Control Committee or place in the Board's lock box in the pavilion for approval.
8. **Recorded Covenants or Current Rules and Regulations override any errors or omissions.**

Name: \_\_\_\_\_ Lot No / Address: \_\_\_\_\_ / \_\_\_\_\_

Date: \_\_\_\_\_ Approx. Start Date: \_\_\_\_\_

Name of Propane Company: \_\_\_\_\_

**Approved Materials for  
Tank Concealment  
(No Substitutions Allowed)**
